DUTCH RELIEF ALLIANCE - 2019 IN NUMBERS

We've invested **61.5 MILLION EUROS** in joint responses to acute and protracted humanitarian crises.

We've reached **2.3 MILLION PEOPLE** with humanitarian assistance.

In 2019, the Dutch Relief Alliance consisted of sixteen Dutch non-governmental organisations:

- CARE Nederland
- Cordaid
- Dorcas
- Help a Child
- ICCO & Kerk in Actie
- Oxfam Novib
- Plan International Nederland
- Save the Children
- SOS Kinderdorpen
- Stichting Vluchteling
- Tearfund Netherlands
- Terre des Hommes
- War Child
- War Trauma Foundation
- World Vision
- ZOA

In 2019, we cooperated with **83** local partner organisations.

EFFECTIVE, EFFICIENT, RELEVANT, TIMELY AND HIGH-QUALITY HUMANITARIAN ASSISTANCE AROUND THE WORLD

FOREWORD

CONTENTS

Worldwide, millions of people face life-threatening challenges on a daily basis. The number of vulnerable people lacking basic services, such as shelter and clean drinking water, has been growing consistently in recent years. We are proud that in 2019 the Dutch Relief Alliance (DRA) substantially contributed to alleviating the suffering of approximately 2.3 million people, in both acute and protracted crises.

Continuous learning and adaptation to evolving situations are key to delivering assistance in the most effective and efficient way to those most in need. We therefore closely monitor the progress and outcomes of our responses, with special attention to the Grand Bargain commitments and our four strategic pillars: collaboration, innovation, localisation and accountability. Moreover, in 2019, DRA colleagues from several countries gathered during a three-day event to evaluate the joint efforts, learn from each other and optimise our work.

The DRA relentlessly endeavours to be a valuable collaboration between Dutch humanitarian NGOs and their partners. By jointly responding to humanitarian crises, we aim to deliver higher-quality aid than if we were operating individually. In 2019, the Dutch government granted us an additional 10 million euros, enabling us to reach more people in more countries. I hope this *Impact Brief* illustrates to you the reach and success of our collaborative work.

OUR JOINT RESPONSE IN CAMEROON

ACUTE CRISIS

OUR INTERVENTIONS AND THEIR IMPACT

In 2019 and 2020, our work in Cameroon's Southwest and Northwest Regions targeted internally displaced persons and host communities. We distributed food vouchers, rehabilitated and constructed water points, built latrines and showers, and promoted hygiene. Other activities included the provision of dignity kits to women and girls who are at risk, support to survivors of gender-based violence, sensitisation on protection issues, and capacity building of local actors. Our health interventions focused on sexual and reproductive health and family planning. Furthermore, we created child-friendly spaces and offered training and psychosocial support to community volunteers.

The number of people we planned to reach and the number we actually reached in Cameroon in 2019-2020, during an eight-month period:

OUR INTERVENTIONS AND THEIR IMPACT

In 2019, we offered humanitarian assistance to extremely vulnerable people affected by conflict and natural disasters in Afghanistan. Our activities included rehabilitation and construction of water points and latrines, along with hygiene promotion and hygiene kit distribution. People's living conditions were further improved through the repair of houses, construction of transitional or permanent shelter and creation of livelihood opportunities. We also provided unconditional cash and emergency shelter (tents) to recently displaced persons and people affected by flooding. In addition, we supported local aid agencies to build their capacities.

OUR INTERVENTIONS AND THEIR IMPACT

Our activities in the Central African Republic in 2019 targeted the most vulnerable households in Ouham and Ouham-Pendé prefectures. We rehabilitated and constructed water points and latrines, as well as promoted hygiene. In addition, we provided unconditional cash, mainly through cash-for-work schemes, and implemented protection interventions for gender-based violence survivors and at-risk children, i.e. case management, information management, capacity building and safe-space work. Through vocational training, income-generating activities and the provision of seeds, tools and agricultural training, we increased the access to and availability of food.

OUR JOINT RESPONSE IN THE DEMOCRATIC REPUBLIC OF CONGO

PROTRACTED CRISIS

OUR INTERVENTIONS AND THEIR IMPACT

In 2019, we supported the most vulnerable conflict-affected people in six territories of the Democratic Republic of Congo. Our aid work included the supply of food vouchers, distribution of seeds and tools, agricultural training, construction of water points and latrines, and unconditional cash assistance. Furthermore, we focused on training teachers, supporting victims of gender-based violence, creating child-friendly spaces and providing psychosocial support for children.

OUR JOINT RESPONSE IN IRAQ

PROTRACTED CRISIS

OUR INTERVENTIONS AND THEIR IMPACT

In 2019, our main focus in Iraq was to properly hand over and close down activities initiated in previous years. During the phase-out, we worked on sustaining achievements and level of impact as we gradually increased the independence of the beneficiaries. Interventions included cash-for-work schemes and facilitating access to water and sanitation services. We also engaged with authorities to promote full adherence to human rights laws and offered protection support to people suffering from abuse and violence.

The number of people we planned to reach and the number we actually reached in Iraq in 2019, during the six-month phase-out:

OUR JOINT RESPONSE IN MALAWI AND MOZAMBIQUE

ACUTE CRISIS

OUR INTERVENTIONS AND THEIR IMPACT

In response to the catastrophic damage to homes, hospitals, schools and agricultural land caused by Cyclone Idai in March 2019, we provided protection and life-saving assistance in Malawi and Mozambique. Additionally, we contributed to restoring dignity and safety through the implementation of several activities, including the provision of food, agricultural inputs and water purification items, construction of sanitation facilities, and psychosocial support in child-friendly spaces. Our work targeted the most vulnerable, hardest hit people, for example, those without shelter and those at increased risk of gender-based violence.

PROTRACTED CRISIS

OUR INTERVENTIONS AND THEIR IMPACT

In 2019, we offered humanitarian aid to communities affected and displaced by ongoing drought and conflicts in Somalia. The activities specifically targeted female- and child-headed households, families with many children, people with disabilities and the elderly. Our work included small business start-up training, maternal healthcare and awareness raising among and support to women and girls facing protection issues, such as early marriage and sexual and gender-based violence. Moreover, our initiatives comprised the distribution of hygiene kits, provision of nutrition supplies to malnourished children, unconditional cash transfers and cash-for-work schemes.

OUR JOINT RESPONSE IN SUDAN

PROTRACTED CRISIS

OUR INTERVENTIONS AND THEIR IMPACT

The implementation of our activities in Sudan in 2019 coincided with widespread protests that led to the fall of al-Bashir's regime. During this politically turbulent time, we responded to the immediate needs and protection risks of the most vulnerable and conflict-affected people in targeted areas in North Darfur and South Kordofan. We offered humanitarian aid to internally displaced persons, refugees, returnees and vulnerable host communities. Our interventions included the protection of unaccompanied minors, such as former child soldiers, distribution of agricultural livelihood start-up kits for female-headed households, responses to a cholera outbreak in White Nile state, as well as the provision of safe water and sanitation and hygiene facilities.

OUR INTERVENTIONS AND THEIR IMPACT

In 2019, we phased out our humanitarian aid work in conflict-ridden Ukraine. People living on both sides of the contact line between the fighting parties received assistance. Our interventions included the provision of emergency livelihood grants and training, as well as multi-purpose cash grants. We also delivered non-food items, such as heating materials, in areas where cash was not an option. The protection initiatives targeted adults and children living near the contact line, in particular households with parents at risk of losing parental care.

OUR JOINT RESPONSE IN YEMEN

PROTRACTED CRISIS

OUR STRATEGIC PILLARS

COLLABORATION

The DRA members are committed to jointly implementing humanitarian assistance, thereby making a greater impact than when operating independently. Together, we respond to major crises in a timely and effective manner.

INNOVATION

Since needs and circumstances are constantly changing, the DRA stimulates and invests in innovation. Through the DRA Innovation Fund, we facilitate the development and implementation of innovative approaches and activities, in order to ensure the continuous improvement of humanitarian aid and its impact on crisis-affected people.

LOCALISATION

Localisation enhances the impact of interventions. That is why, whenever possible, local partners are involved in all stages of our joint responses, from design to evaluation. Over the past few years, funds flowing directly to local partners rose to approximately 25 per cent of the budget. Moreover, the DRA has been increasingly focusing on capacity strengthening of local partners. We also ensure that local voices are amplified at international fora.

ACCOUNTABILITY

For its interventions, the DRA strives for maximum accountability to crisis-affected people, governments, civil society organisations and Dutch taxpayers. Affected people are involved in all phases of our joint responses.

OUR INTERVENTIONS AND THEIR IMPACT

In 2019, our humanitarian aid initiatives in Yemen targeted conflict-affected displaced persons, host communities and vulnerable people with poor access to services and livelihoods. Besides the implementation of water supply and hygiene promotion activities, we rehabilitated four health centres and one emergency obstetric and neonatal care unit. We also supported three mobile health teams to provide primary healthcare services. Furthermore, unconditional cash and cash-for-work schemes were introduced.

INNOVATION FUND PROJECTS

In 2019, the following innovative projects were implemented with funds from the DRA Innovation Fund I.

SYSTEMATIC COST ANALYSIS (SCAN) TOOL

Methods to estimate value for money are not consistent across programmes, producing results that cannot be meaningfully compared. The Systematic Cost Analysis (SCAN) Tool offers a solution by performing a thorough value for money analysis. By pulling expense data from organisations' finance systems, the tool helps estimate a programme's cost-effectiveness, compares it to other programmes, and provides evidence-based suggestions for improvement. The Grand Bargain Cash Workstream has adopted the innovative SCAN Tool as the official cost-efficiency analysis instrument.

Participating organisations:

Action Against Hunger, CARE USA, Mercy Corps, Save the Children, Stichting Vluchteling/ International Rescue Committee

EMPOWERED2PROTECT

The Empowered2Protect initiative prevents sexual violence among 400 women in Kabare Territory, Democratic Republic of Congo, through the introduction of the 'Invi Bracelet'. The bracelet is a non-violent self-defence device that produces a foul smell to repel perpetrators and alarm others. Awareness-raising activities, including community sessions about causes and prevention of violence, are part of the project. Moreover, research on the bracelets' applicability and impact is conducted through satisfaction surveys, interviews and focus group discussions.

The user-friendly Incident Reporting App gathers and provides security information in an innovative way. It was developed by ZOA with the aim of improving their incident reporting procedure. Currently, ZOA uses the application globally as a tool to collect incident reports, as well as to centrally archive information stored in different systems. Running on Android and iOS software, the app supports reporting in different languages and makes it possible for staff to report incidents while travelling.

The 121 platform is a cash transfer platform that aims to make cash-based aid safe, fast and fair. It connects donors to beneficiaries, helping people affected by disasters meet their own needs. With available technology, the platform facilitates the registration of recipients and their wants, assigns digital identities, and allocates cash. The system is connected to context-specific information about donation opportunities and the ways beneficiaries can redeem digital cash.

B-READY

The Building Resilient, Adaptive and Disaster-Ready Communities (B-READY) project protects households from natural disasters by increasing their resilience. It combines two innovations on disaster-preparedness: an early warning system and a pre-disaster cash transfer programme. In 2019, B-READY was successfully utilised when Typhoon Phanfone was approaching the Philippines: 929 families were evacuated and each family received € 32, sufficient for five days of food.

Participating organisations:

CLIMBS Life and General Insurance Cooperative, Global Parametrics, Municipality of Salcedo (Philippines) government, Oxfam Novib, PayMaya Philippines, People's Disaster Risk Reduction Network, Plan International Nederland, Visa

Thematic area:

Cash Programming

Programme period:

1 January 2019 – 31 December 2020

Budget: € 610,464

DUTCH RELIEF ALLIANCE

In 2019, the Dutch Relief Alliance was a collaboration between sixteen Dutch humanitarian non-governmental organisations, in partnership with the Netherlands Ministry of Foreign Affairs.
